TUPLES

Tuples:
- A set of data within parentheses (…)
- Immutable

```python
3    coordinates = (10, 20)
4    person = ("Alice", 25, "Engineer")
5    single_item = (42,)  # Note the comma for single item
6
7    # Tuple operations
8    print(coordinates[0])   # Accessing elements
9    print(len(person))      # Length
```
